INTERACTIVE MEETING MADE EASY

## Wireless presentations i3SYNC Touch

Gain full control of your presentation and connect with your audience thanks to this compact and lightweight presenter tool. Just plug in the wireless transmitter into your device and you are set. No need to install any software on your computer.

### The software...

- offers more customization options.
- you have access to new and inspiring dynamic wallpapers, an i3STORE with apps collections and options to personalize your app list.
- the display integrates the new i3SYNC Touch, allowing you to connect your laptop wirelessly and interact with the screen using the integrated touch function.
- you have quick access to your meeting schedule by connecting the display to your meeting room planner.
- the display is more concerned about your personal security.
- you can clean all your personal data by clicking the 'Exit' button.

## Home button for easy navigation

The home button allows you to return to your main screen/home page, which features all the different options. Navigation has never been easier.

## Simple whiteboarding with i3NOTES

Use **i3NOTES** to make notes and draw ideas with digital ink. Email your annotations as PDF. **i3NOTES** is a simple application designed to get you up and running quickly. The intuitive interface offers essential whiteboarding tools without distractions.

## What does the new i3HUDDLE offer you?

The display features an improved design with integrated sound bar that produces excellent sound quality.

 **SENSE** The screen is equipped with Capacitive Sense technology which adds a high level of responsiveness and precision as well as unparalleled user experiences to the **i3HUDDLE**.

6. C-SENSE
7. INTEGRATED NEW i3SYNC TOUCH
8. CONNECTION TO MEETING ROOM PLANNING
9. MORE ATTENTION TO SECURITY
10. VIDEO CONFERENCING

# i3HUDDLE 2.0

## i3HUDDLE 2.0 WITH CAPACITIVE SENSE TECHNOLOGY

Bringing advanced touch screen user experiences to your meeting room.

The i3HUDDLE 2.0 offer the best of both worlds with a powerful touch interface combined with a durable whiteboard surface and a sleek, ultra-thin aluminium frame.

### CAPACITIVE SENSE TECHNOLOGY.

Even if you have never heard of capacitive sense technology, you have been using it for quite some time now; just think about your smartphone or tablet touchscreens. A capacitive touchscreen works by sensing the conductive properties of an object, generally your fingertip's skin.

Easy volume control on the integrated soundbar.

## ADVANTAGES

- All-in-one meeting solution to enhance communication and collaboration
- Integrates i3SYNC Touch, i3NOTES...
- Connects professionals in a secure environment
- Offers C-Sense speed & precision
- Facilitates online presentations, trainings or demos
- Intuitive, no training required
- Reduces travel time, increases efficiency, saves time
